

Compact cylinders ADNGF, standard hole pattern

FESTO

Key features

At a glance

The sturdy combination of guide rods and yoke plate reliably prevents the piston rod from rotating, thus ensuring maximum torsional stability, precision and process stability in many applications.

- Standards-based cylinder to ISO 21287
- Good running performance and long service life

Cushioning

Reduces noise generation

- Reduces kinetic energy in the end positions
- Avoids vibrations
- End-position cushioning has the following functions:

[P] Elastic cushioning rings/plates at both ends

The drive is fitted with elastic polymer end-position cushioning.

Advantages:

- No adjustment required
- Saves time

[PPS] Pneumatic cushioning, self-adjusting at both ends

The drive is fitted with pneumatic end-position cushioning, which automatically adapts to the moving mass and speed and does not need to be adjusted by the operator.

Advantages:

- Saves time
- Powerful

Position sensing

[A] Via proximity switch

By using proximity switches, any position can be detected.

Stroke adjustment

Through piston rod with adjustment component mounted on one side. For limiting the extended end position and to set a precise position.

Key features

Piston rod type

[] At one end

The piston rod can be used for connection at one end of the cylinder

[S2] Through piston rod

The piston rod can be used for attachment at both ends of the cylinder

Temperature range

[S6] Heat-resistant seals max. 120 °C

Rating plate

[TL] Lasered

Easy identification for spare parts, even after years in a harsh environment

		Description	→ Page/Internet
[1]	Compact cylinder ADNGF	Double-acting	6
[2]	One-way flow control valve GRLA/GRLZ	For regulating speed	23
[3]	Push-in fitting QS	For connecting tubing with standard O.D.	qs
[4]	Flange mounting FNC	For end caps	15
[5]	Swivel flange SNCL/SNCL-...-R3	For end caps	16
[6]	Swivel flange SNCB/SNCB-...-R3	For end caps	20
[7]	Multi-position kit DPNA	For connecting two cylinders with the same piston diameter to form a multi-position cylinder	19
[8]	Trunnion flange ZNCf/CRZNG	For end caps	21
[9]	Trunnion support LNZG	For trunnion flange ZNCf/CRZNG	22
[10]	Swivel flange SNCS/CRSNCS/SNCS-...-R3	For end caps	17
[11]	Clevis foot LBG/LBG-...-R3	For swivel flange SNCS	18
[12]	Proximity switch SME-8	Can be integrated in the cylinder profile barrel	24
[13]	Proximity switch SME/SMT-8M	Can be integrated in the cylinder profile barrel	24
[14]	Slot cover ABP-5-S	For protecting the sensor cables and the sensor slots from contamination	25
[15]	Proximity switch SMPO-8E	Pneumatic output signal	25
[16]	Mounting kit SMB-8E	For proximity switch SMPO-8E	25
